GAME RULES

- The game is played with two teams, green and red, with six balls per team.
- Split balls up evenly between partners.
- A flip of a coin determines what team should go first.
- This team then throws all six balls trying to have their balls land close to the feather and also trying to leave a good enough defense to stop the opposing team from landing its balls close to the feather.
- The opposing team then tries to land its balls closer to the feather than the first team.
- Scoring is based on how many balls the closest team to the feather has closer to the feather than the other team.
- One point is given for each ball that is closer to the feather. (No extra points are given if you land directly on the feather.)
- Points are marked on the scoreboard located on the wall half way down the alley.
- The team that has the most points at the end of the game wins.
